Subject: Streamline Annual Information

Hi Jade,

It was a pleasure speaking with you! As mentioned, if you'd like to switch to annual payments it would reduce some of the paperwork and make hopefully both of our lives a little easier. The annual terms are still no-risk, so if for any reason you decide to leave the platform, we'll happily refund any funds for unused months.

Here is a breakdown of the costs:

\$249 (new monthly cost) x 12 months = \$2,988 invoice that we can send on July 1, in line with your fiscal year start date.

Let me know if you have any questions! :)

Best Regards,

Madison Wallace
